

STAT 2131: Applied Statistical Methods I Fall, 2013

Course Info.: Monday & Wednesday, 4:30PM - 5:45PM
314 Bellefield Hall
Webpage: <http://courseweb.pitt.edu>

Texts: Applied Linear Statistical Models, 5th Ed.
-Kutner, Nachtsheim, Neter & Li
SAS for Linear Models, 4th Ed
-Littell, Stroup, & Freund

Instructor: Dr. Kehui Chen
Email: khchen@pitt.edu
Office: Cathedral of Learning 2706
Office Hrs: Monday 1:00-2:00pm & Wednesday 1:00pm-2:00pm

Grader: Qiyao Wang
Email: qiw31@pitt.edu
Office: Cathedral of Learning 2617
Office Hrs: Tuesday 2:40-3:40pm & Thursday 2:40-3:40pm

Course Outline

This course is the first semester of a two semester sequence in applied statistical methodology. The overall goal of the course is to gain a deep understanding of the foundations of popular methodology and in how to choose, apply, and interpret appropriate statistical methods.

This first semester will cover linear regression and follows Chapters 1-12 of Kutner, Nachtsheim, Neter & Li. OLS and MLE estimation, hypothesis testing and confidence intervals, model interpretation, ANOVA, prediction, modeling building, and regression diagnostics are some of the topics that will be covered. The appropriate sections of Littell, Stroup, & Freund will also be covered and SAS will be used for data analysis. The text will be supplemented by course notes and other material to emphasize particular topics of interest.

Prerequisites

- A course in Linear Algebra.
- A course in Mathematical Statistics (STAT 1152 or higher).
- Working knowledge of calculus (especially differentiation).

Grading

The final grade will be computed from homework (30%), the midterm (35%), and the final (35%).

- Homework: Homework assignments will be assigned on a regular basis. They consist of problems from the text, supplemental problems, and real case studies.
- Midterm: There will be one open book midterm. The date for the midterm will be announced at least one week before it is given.
- Final: The final will be given during the last class and will be open book.

Accommodations for Disabilities

If you have a disability for which you are or may be requesting an accommodation, you are encouraged to contact both your instructor and Disability Resources and Services, 216 William Pitt Union, (412) 648-7890 or (412) 383-7355 (TTY), as early as possible in the term. DRS will verify your disability and determine reasonable accommodations for this course.
